Superior Merchandising

The D5X family was designed to help you merchandise and sell. Superior display features include full vision glass ends, illuminated canopy signs, improved ledge lighting, greater shelf placement flexibility and more. Streamline and Contour styling available.

Lower Energy Costs

Impact Excel D5X cases come with energy efficient "E" coils as standard on "E" models. The super efficient E-Plus coils on "EP" models reduce energy costs by about 18% compared to standard Impact dairy. Night curtains can be added to help trim about 12.6% more off your energy costs for this case.

Superior Shelf Life

Modular coils and off-time defrost work to reduce thermal shock and stabilize product temperatures, resulting in better freshness and longer shelf life. Modular defrost, optional, can further stabilize temperatures.

Note: These merchandisers are designed for use in stores when temperature and humidity do not exceed 75°F and 55% RH.

Note: We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions or replacements for equipment previously sold or shipped.
